

PEFO HAS MADE SUCCESSFUL AND A WINNER- KAMPI MIRIAM

"I have written this note to gratefully appreciate the management and staff of PEFO for the support they rendered me and my family towards completing my education.

I thank everyone at PEFO but more so the director Mr. Ojambo Justin for the spirit of supporting the vulnerable children especially in education. I believe if it wasn't PEFO, I wouldn't be holding a Bachelors degree in Development Studies and reaching where I am, thanks to PEFO and may the Good Lord reward you.

Miriam during her graduation

PEFO came to my rescue in 2011 just after I had completed my secondary education in Parvatiben Muljibhai Madhvani (PMM) Girls' school in Jinja in 2010, where I got 16 points. Even after passing with 16 points I was stuck about the next step. However, my mother being in one of the grannies group PEFO supports, I got an opportunity to be included among the students PEFO would support at the University. This is when I realized that the doors for my future had been opened.

I was then advised to apply in Makerere University for a course of my choice which I did. I was totally surprised when PEFO paid all the tuition. I thought paying tuition would be done for only one semester but I was surprised when they support till I finished my university dedication.

There are no enough sweet words to express my happiness towards PEFO, only I can say "THANK YOU SO MUCH". PEFO, I promise never to let you down. I believe with such education, I will support my family as well as educating my siblings. You laid a foundation for my future and the family. I am sincerely thankful for the support. I am successful. I am a winner", Kampi Miriam
